EDUCATION

B.Tech in Computer Science & Engineering 2021 – 2025
Shri Vishnu Engineering College for Women, Bhimavaram
CGPA: 7.43

INTERNSHIPS AND WORK EXPERIENCE

Data Science Intern, RP2 (Bangalore) Aug 2025 – Present

- Developed and deployed Machine Learning and Deep Learning models.
- Solved real-world business problems using analytical thinking.
- Worked on Generative AI and NLP.
- Collaborated with cross-functional teams for data-driven decisions.

Data Science Intern, 1 Stop Jul 2024 – Sep 2024

- Performed data cleaning, analysis, and visualization using Python.
- Applied ML and DL techniques on real datasets.
- Explored emerging AI tools and algorithms.

Data Science Intern, SkillHacc Jun 2023 – Aug 2023

- Built ML/DL models for predictive analysis.
- Applied data preprocessing and statistical modeling.
- Delivered insights through team projects.

PROJECTS

Netflix Data Analysis (Data Science) 2025

- Analyzed Netflix dataset to identify trends in content type, genre, and release patterns.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) using Python.
- Visualized insights using Matplotlib and Seaborn dashboards.
- Extracted business insights to understand user preferences and platform growth.

Uber Data Analysis (Data Science) 2025

- Analyzed Uber trip data to study ride patterns, peak hours, and demand trends.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) using Python.
- Visualized trip distribution and customer behavior using Matplotlib and Seaborn.
- Generated actionable insights to improve operational efficiency and service planning.

YouTube Summarizer (NLP) 2024

- Built an NLP system to summarize YouTube transcripts.
- Integrated YouTube API with Python.
- Improved content consumption efficiency.

Smart Traffic Signaling System (IoT + AI) 2023

- Designed smart traffic optimization system.
- Used IoT sensors for vehicle density detection.
- Implemented dynamic traffic algorithms.

COURSES AND CERTIFICATIONS

- Data Science Internship — RP2
- Machine Learning & Deep Learning Internship — 1 Stop
- Cybersecurity & Data Science Internship — SkillHacc

TECHNICAL SKILLS

Programming: Python, SQL
ML/DL Frameworks: TensorFlow, PyTorch, Scikit-learn
Generative AI & NLP: LLMs (GPT), NLP Pipelines
Data Technologies: Data Warehouses, Data Lakes
Other Tools: DevOps, Data Visualization, Statistical Modeling

EXTRA CURRICULAR ACTIVITIES AND ACHIEVEMENTS

- Exploring advanced AI techniques such as RAG and fine-tuning.
- Participated in research-oriented and team-based internships.
- Served as Coordinator of an Eco-Friendly Association, organizing environmental awareness programs and sustainability initiatives.
- Led campaigns on waste management, plastic reduction, and green practices within the community.
- Attended workshops and training programs on Artificial Intelligence and Data Analysis to enhance practical and technical skills.
